2027 Military Retirement Pay Chart

Estimated monthly retired pay under High-3, by rank and years of service, for a July 1, 2027 retirement. Before taxes.

> Projected. The 2027 months of each High-3 use the raise the President set for January 1, 2027, unless Congress enacts a different number. DFAS publishes the official tables in December.

How to read this. Find your rank, then your years of service. That is your estimated monthly retired pay under High-3, which pays 50% of your highest 36-month average basic pay at 20 years and 2.5% more for each year after. Under the Blended Retirement System the multiplier is 2.0% a year, so a 20 year pension is about 80% of the 20 year column. VA disability pay is tax-free and adds to these amounts at a 50% rating or higher. Below 50%, it replaces that much of the pension, and the total stays the same unless you qualify for CRSC.
